

Computer Power Supply Units

These power supplies are designed for AMD and Intel systems. Models range from Micro ATX 200W to ATX 300W and include various features.

Overview

Reliable Power Solutions

These versatile computer power supply units offer a range of power outputs from 200W to 300W, making them suitable for various AMD and Intel system configurations. Designed with compatibility and ease of use in mind, they feature standard ATX interfaces and flexible cabling options. Whether you need a compact Micro ATX solution or a more robust ATX setup, these units provide stable power delivery for your computing needs.

Technical Specifications

PFC Type

Passive PFC

Power Range

200W - 300W

Input Voltage

115V - 230V

Dimensions

140 x 150 x 86 mm

Cable Length

40 cm

Compatibility & Connectivity

Connector Configuration

- 1 x 20+4 Pin ATX
- 3 x SATA
- 1 x IDE

System Compatibility

AMD, Intel

Cooling & Accessories

Fan Size

8cm / 12cm (Model dependent)

Power Cable Included

Yes

Power Cable Length

1.2 m
