

Concealed Cabinet Hinge with Clip-On Mechanism

This concealed hinge is designed for frameless cabinets and features a clip-on mechanism. Made from steel with a nickel-plated finish, the hinge is adjustable in three directions for precise door alignment.

Product Overview

High-Performance Concealed Cabinet Hinge

This concealed cabinet hinge features a sophisticated clip-on mechanism designed for seamless door installation and removal, making it an ideal choice for modern cabinetry. Constructed from durable steel with a corrosion-resistant nickel-plated finish, it ensures long-lasting reliability in kitchen, bathroom, and furniture applications. With three-way adjustability, this hinge provides precise door alignment and a wide opening angle for maximum accessibility.
