

Concrete and Asphalt Cutter

This concrete cutter is designed for cutting concrete and asphalt surfaces. It features a gasoline engine and adjustable cutting depth for versatile use.

Overview

Professional Concrete and Asphalt Cutter

The CC-18 is a robust and efficient machine engineered specifically for precision cutting of concrete and asphalt surfaces. Driven by a powerful gasoline engine, it delivers consistent performance for demanding construction, road maintenance, and demolition tasks. The unit features an adjustable cutting depth and a sturdy frame design, providing the stability and versatility required for professional-grade results.

Technical Specifications

Model Number	CC-18
Power Source	Gasoline Engine

Key Features

Operational Benefits

- Adjustable cutting depth for versatility
- Precision cutting blade for clean results
- Ergonomic design for operator comfort
- Heavy-duty frame for stability

Primary Applications	Construction, Road Maintenance, Demolition
