

# Concrete and Asphalt Cutting Machine

This machine is designed for cutting concrete and asphalt surfaces on construction sites. It is available in multiple models with varying engine power and blade sizes.

## Product Overview

### Professional Concrete and Asphalt Cutting Solutions

This heavy-duty construction machinery is engineered for precise cutting of concrete and asphalt surfaces. Available in two distinct configurations, these machines offer robust power and reliable performance for demanding job sites. With features like integrated water cooling systems and adjustable cutting depths, these units are designed to enhance efficiency and durability in road maintenance and construction applications.

## Technical Specifications

### Performance Comparison

Specification	QF-350/400	QF-500
Power	8HP	13HP
Blade Diameter	350/400 mm	500 mm
Cutting Depth	130 mm	160 mm
Cutting Speed	1-2 m/min	1-2 m/min
Net Weight	100 kg	110 kg
Gross Weight	110 kg	115 kg

Water Tank Capacity	45 L
Packing Dimensions	1150 x 560 x 930 mm

## Key Features

### Performance Highlights

**130 mm**

Max Cutting Depth (Small Model)

**160 mm**

Max Cutting Depth (Large Model)

Compatible Blade Thickness	3-4 mm
Suitable Surfaces	Concrete, Asphalt
