Product Overview

Professional Concrete Crack Chaser Blade

This high-performance diamond blade is engineered specifically for widening and cleaning cracks in concrete and masonry surfaces. It features segmented diamond-impregnated teeth designed for aggressive material removal, ensuring efficient preparation for patching and repair work. Built for versatility and durability, the blade supports both wet and dry cutting applications across a wide range of machinery.

Technical Specifications

Compatible Machinery

- Angle grinder
- Circular saw
- Table saw
- Masonry saw

Compatible Materials

Concrete, Granite, Marble, Ceramic

Manufacturing Process

Brazed

Performance & Quality

Certifications

MPA • SGS

Key Advantages

- Fast & stable cutting performance
- Supports dry or wet cutting
- Long lifespan
- High cutting efficiency for energy savings

Logistics & Packaging

Packaging Details

Package Type	Applicable Size
Blister package	Below 230mm
Skin package	Below 150mm
White box	All sizes
Brown envelope	All sizes
