

# Concrete Cutter with Adjustable Depth

This concrete cutter is designed for cutting concrete and asphalt surfaces. It features adjustable cutting depth and a sturdy frame for stability and precision.

## ADDITIONAL IMAGES

## Product Overview

### Professional Concrete Cutting Solution

This robust concrete cutter is engineered for precision and efficiency in road construction and floor maintenance. It is capable of cutting expansion joints, as well as grooving concrete, marble, and granite surfaces. Designed for safety and flexibility, this machine ensures quick, even cuts even when encountering steel beams within concrete.

## Technical Capabilities

### Blade Performance

- Diamond sheet technology
- Quick cutting speed
- Even cut quality
- Capable of cutting steel beams in concrete

### Compatible Materials

Concrete, Marble, Granite, Asphalt

## Operational Features

### Operational Highlights

Adjustable Depth • Simple Construction • Flexible Operation • Safety Focused

### Cooling System

Yes

### Engine Type

Honda Engine
