

Concrete Cutter

Concrete cutters are available in QF-350/400 and QF-500 models. The QF-350/400 features 8HP power and a 350/400mm blade diameter, while the QF-500 has 13HP power and a 500mm blade diameter.

Overview

Professional Grade Concrete Cutters

These robust concrete cutters are designed for precision and efficiency in construction and road maintenance tasks. Available in two distinct power configurations, they offer versatile cutting depths and reliable performance for demanding job sites. Built for durability and ease of operation, these machines ensure consistent results with features like integrated water tanks and stable, heavy-duty frames.

Technical Parameters

Model Specifications

Feature	QF-350/400	QF-500
Power	8HP	13HP
Blade Diameter	350/400mm	500mm
Cutting Depth	130mm	160mm
Cutting Speed	1-2m/min	1-2m/min
Tank Volume	45L	45L
Net Weight	100kg	110kg
Gross Weight	110kg	115kg

Packing Dimensions 1150 x 560 x 930 mm
