

Concrete Cutting Saw

This concrete saw is a robust machine for cutting concrete and asphalt. It features a powerful engine, a circular diamond blade, and a water cooling system.

Overview

Professional Concrete Cutting Solution

This robust concrete cutting saw is engineered for high-performance cutting on concrete and asphalt surfaces. Equipped with a powerful single-cylinder diesel engine and a durable circular diamond blade, it ensures efficient operation for road construction, repair, and demolition tasks. The integrated water cooling system significantly reduces dust emissions and extends the service life of the blade, while the sturdy wheeled frame allows for easy maneuverability on job sites.

Technical Specifications

Engine Type	Single-cylinder diesel engine
Cooling System	Yes

Applications

Intended Use	Road Construction, Repair Projects, Demolition, Concrete Cutting, Asphalt Cutting
--------------	---

Features

Key Features

- Powerful single-cylinder diesel engine
- Circular diamond blade for precision cutting
- Integrated water cooling system
- Sturdy frame with wheels for maneuverability
