

Concrete Demolition Hammer

This demolition hammer is designed for concrete breaking, chipping, demolition, and driving ground rods. It features a robust motor, impact-resistant housing, and ergonomic design.

Product Overview

Professional Concrete Demolition Hammer

This heavy-duty demolition hammer is engineered for demanding concrete breaking, chipping, and demolition tasks. It features a robust motor and impact-resistant housing, making it ideal for professional construction environments. The tool is designed with vibration reduction technology and an ergonomic handle to ensure comfortable operation during extended use.

Performance & Capabilities

Primary Applications

- Concrete breaking
- Chipping
- Demolition
- Driving ground rods

Design Features

Key Features

Vibration Reduction • Ergonomic Design • Impact-Resistant Housing • Heavy-Duty

Technical Specifications

Bit Compatibility	Standard demolition chisel bits
Quality Grade	High level quality tools
