Overview

Professional Concrete Cutting Solution

This high-performance concrete floor saw is engineered for precision cutting across concrete, cement, asphalt, and stone pavements. Featuring an ergonomic design with adjustable handle height and depth controls, it ensures operator comfort and accurate results. The integrated water cooling system extends blade longevity, while the robust frame provides the stability required for demanding construction and road maintenance tasks.

Performance Metrics

Maximum Cutting Depth

26 cm
Max Depth

Engine Power Range

18.4 hp

Technical Specifications

Driving Mechanism

Manual Push • Semi-self Propelled

Compatible Blade Sizes

35 cm, 60 cm, 14 in, 24 in

Water Tank Capacity

46 L

Operating Mass

175 kg

Dimensions

Machine Dimensions

130 x 63 x 99 cm

Features

Key Features

- Adjustable handle height for ergonomic operation
- Rotary crank for precise cutting depth adjustment
- Integrated water cooling system for blade longevity
- Reinforced frame for straight-line cutting stability
- Easy-access blade protection cover
