

Concrete Mixer Truck

This heavy-duty concrete mixer truck is designed for efficient transportation and mixing of concrete on construction sites. Its rotating mixing drum ensures consistent concrete quality and minimizes segregation during transport.

Overview

High-Performance Concrete Transport

This heavy-duty concrete mixer truck is engineered for the efficient transport and mixing of concrete on demanding construction sites. It features a robust chassis and a specialized rotating mixing drum equipped with spiral blades for consistent material quality. With a reliable hydraulic system for controlled discharge and a powerful engine, this vehicle ensures optimal performance and maneuverability in various job site conditions.

Technical Specifications

Performance Metrics

1 High Consistent Quality	1 Minimized Segregation Control
-------------------------------------	---

Drum Capabilities

Rotating Drum, Spiral Blades, Hydraulic Discharge
