

Concrete Nailer

This concrete nailer is designed for driving nails into concrete and other hard materials. It features a robust construction for durability and a high-capacity magazine for increased productivity.

Product Overview

Professional Grade Concrete Fastening

The ST64-3 concrete nailer is a powerful and efficient tool engineered for driving nails into concrete and other high-density materials. Its robust construction ensures long-lasting performance in demanding construction environments, while the ergonomic design reduces user fatigue during extended operation. This versatile nailer is ideal for tasks such as fastening wood to concrete and installing furring strips with precision and speed.

Performance & Capacity

Magazine Capacity

1 unit

High-Capacity Magazine

Compatible Materials

Concrete, Hard Materials, Wood-to-Concrete, Furring Strips

Design & Ergonomics

Handling

Ergonomic Design • Reduced Fatigue

Build Quality

Robust construction for durability

Safety & Operation

Safety Features

- Contact-trip mechanism to prevent accidental firing
- High-capacity magazine for reduced downtime
- Versatile compatibility with various concrete nails

Applications

Primary Applications

- Fastening wood to concrete
- Installing furring strips
- General concrete fastening tasks
