

Concrete Power Trowel with 196cc Engine

This power trowel is designed for finishing concrete surfaces. It features a 196cc engine, providing reliable power for efficient operation.

Product Overview

Professional Concrete Finishing

This power trowel is engineered for professionals looking to achieve a superior, smooth finish on freshly poured concrete slabs. Powered by a reliable 196cc engine, it delivers the necessary performance to handle a variety of flooring projects efficiently. Its design prioritizes operator comfort and site safety, featuring an adjustable handle and a robust protective frame for precise control.

Technical Specifications

Engine Displacement

196 cc

Engine Capacity

Application

Concrete Finishing, Floor Smoothing, Slab Leveling
