

Concrete Pump Truck

This truck is designed for heavy-duty applications, featuring a robust chassis and a powerful engine. Equipped with a concrete pump, it is ideal for construction and infrastructure projects.

Overview

High-Performance Concrete Pump Truck

This heavy-duty concrete pump truck is engineered for demanding construction and infrastructure projects. It features a robust chassis and powerful engine, ensuring reliability and performance in challenging work environments. Designed with operator ergonomics in mind, the spacious cabin provides comfort and safety for long-distance transport and intensive site operations.

Technical Details

Safety Features

- Advanced suspension system
- Enhanced operator protection
- Robust structural integrity

Chassis Model	BZ5266TBC
Primary Use Cases	Construction, Infrastructure, Heavy-duty, Long-distance
