Product Overview

High-Strength Concrete Fastening Solution

This concrete wedge anchor is engineered for reliable and secure fastening in concrete substrates. Featuring a specialized expansion clip, it ensures superior grip and stability for heavy-duty construction and industrial applications. Built from durable steel with a corrosion-resistant coating, it offers longevity and high performance across various load requirements.

Technical Specifications

Anchor Type	Wedge Anchor
Material	Steel
Surface Coating	Corrosion-resistant
Key Features	High-Strength, Expansion Clip, Corrosion Resistant, Industrial Grade
