

Conductor Cutter & Tongs Set for Overhead Lines

These conductor cutter and tongs are designed for overhead power line applications. They are suitable for conductors with wraps, with models accommodating sizes from 23.0mm to 48.7mm.

Product Overview

Professional Overhead Line Tools

The XGU series conductor cutter and tongs are engineered specifically for demanding overhead power line applications. These robust tools are designed to handle conductors with wraps effectively, offering reliable performance across various conductor sizes. With a high ultimate strength rating, they provide the durability and precision required for professional utility and electrical maintenance tasks.
