Overview

High-Efficiency Constant Temperature Water Heating

This constant forced gas water heater is engineered for reliable, on-demand hot water supply in residential environments. Featuring advanced constant temperature technology, it ensures consistent output and energy efficiency. The unit is designed to operate with both Natural Gas and LPG, providing flexible installation options to suit various utility setups.

Performance Metrics

Hot Water Capacity

10 L/min

10L/min

12 L/min

12L/min

16 L/min

16L/min

Rated Heat Input

- 20
- 24
- 30

Technical Specifications

Energy Efficiency Standard

Level 2

Exhaust Method

Constant temperature strong exhaust

Operating Water Pressure

0.02 ~ 0.8 MPa

Gas Compatibility

Supported Gas Types

NG (2000 Pa), LPG (2800 Pa)

Dimensions

Available Dimensions

Model Capacity	Dimensions (mm)
Standard	516 x 320 x 150
High Capacity	580 x 350 x 160
