Product Overview

Rugged Construction Wheelbarrow

This heavy-duty construction wheelbarrow is engineered for demanding site conditions, featuring a reinforced steel tray and frame. Designed for high-volume transport of materials like concrete, soil, and debris, it offers a substantial 100L capacity and 250kg load rating. The pneumatic tire ensures smooth maneuverability across uneven terrain, making it an essential tool for construction, landscaping, and agricultural projects.

Technical Specifications

Load Capacity	250 KGS
Water Capacity	100 L
Tray Thickness	0.7 mm
Gross Weight	17-19KG

Wheel and Mobility

Wheel Type	4.00-8 Pneumatic Air Wheel
