

# Continuous Belt Sander for Wood and Metal

This belt sander is a power tool used for sanding. It utilizes a continuous loop of sandpaper stretched between two or more drums, providing a smooth and even sanding surface.

## Product Overview

### Professional Grade Belt Sander

This continuous belt sander is a versatile power tool engineered for both woodworking and metalworking applications. It utilizes a continuous loop of sandpaper stretched between drums to provide a consistent, smooth surface finish. Designed for efficiency, it excels at rapid material removal, shaping, and precision finishing tasks.

## Key Features

### Primary Functions

- Material removal
- Surface shaping
- Smoothing
- Finishing

### Suitable Materials

Wood, Metal

## Technical Specifications

### Mechanism

Continuous loop belt

### Power Tool

Yes
