

Continuous Rim Diamond Saw Blade

This diamond blade is designed for cutting through hard materials such as tile, stone, and concrete. It features a continuous rim for smooth, chip-free cuts and a durable steel core for stability and long life.

Product Overview

Precision Cutting Performance

This continuous rim diamond saw blade is engineered for high-precision cutting of hard materials, including ceramic tile, porcelain tile, and marble. Featuring a durable steel core, it ensures stability and longevity during operation. The blade is designed for both wet and dry cutting applications, offering versatility for professional contractors and DIY projects alike.
