

Continuous Rim Diamond Saw Blade

This diamond circular saw blade is designed with a continuous rim. It is cool pressed for general purpose use on concrete, granite, marble, and stone.

Product Overview

Continuous Rim Diamond Saw Blade

This continuous rim diamond saw blade is engineered for smooth, precise cutting across a variety of hard materials. Featuring a continuous diamond edge, it is specifically designed to minimize chipping and ensure clean, professional-grade results. The blade is versatile enough for both wet and dry cutting applications, making it an essential tool for tile, stone, and ceramic work.

Technical Specifications

Cutting Method

Wet • Dry

Key Features

- Continuous rim design for smooth cuts
- Minimal chipping
- Consistent performance
- Extended lifespan

Model Number

CCC.101

Suitable Materials

Tile, Stone, Ceramic

Compatibility

Mounting Compatibility

Standard angle grinders and tile saws
