Product Overview

Professional Continuous Rim Diamond Blade

This continuous rim diamond cutting blade is engineered for precision and smooth, chip-free cutting across a variety of hard materials including ceramic, porcelain, tile, and stone. Featuring a high diamond concentration, the blade ensures fast cutting speeds and extended tool life for demanding professional applications. Designed for versatility, it supports both wet and dry cutting methods, making it an essential tool for tiling and masonry projects.

Technical Specifications

Blade Diameter	110 mm
Arbor Hole Size	20 mm
Manufacturing Process	Cold pressed
Rim Type	Continuous

Performance & Compatibility

Operation Mode

Wet Cutting • Dry Cutting

Key Features

- High diamond concentration for longevity
- Chip-free cutting performance
- Enhanced durability and resistance

Suitable Materials

Ceramic, Porcelain, Tile, Stone, Concrete, Granite, Marble, Brick
