

Convertible 2-in-1 Oscillating Fan

This convertible fan can be used as a stand fan or a desktop fan. It features multiple speed settings, a timer function, and a remote control.

Overview

Versatile 3D Air Circulation

This 2-in-1 convertible fan offers a seamless transition between pedestal and desktop configurations, making it adaptable for any room. Featuring an advanced brushless DC motor, it delivers powerful airflow while maintaining whisper-quiet operation below 35dB. With intelligent oscillation modes and energy-efficient performance, this unit is designed to enhance air circulation and comfort in any environment.

Performance

Noise Level

35 dB

Max Noise Level

Motor Type	Brushless Digital DC Motor
Max Wind Speed	6.5 m/s
Energy Efficiency	1 KWH per 52 days of operation

Operation & Control

Control Methods

- Touch Panel
- Digital Display
- Remote Control

Speed Settings	12
Wind Modes	Normal, Natural, Sleep
Timer Function	1-16 hours

Oscillation & Movement

Horizontal Oscillation

- 30°
- 60°
- 120°

Vertical Tilt	Up 90°, Down 10°
