

Copper Cable Lug Terminal

Copper cable lug terminals are used for connecting copper cables to electrical equipment in low-voltage applications. They feature a viewing window and bell mouth for easy cable installation and conductor location checking.

Product Overview

Professional Grade Cable Lugs

These high-conductivity copper cable lugs are engineered for secure and reliable low-voltage electrical terminations. Featuring a pure copper construction (Cu e 99.9%) with a durable tin-plated finish, they offer excellent corrosion resistance and electrical performance. The design includes a convenient rectangular viewing window for accurate conductor positioning and a bell-mouth barrel to facilitate smooth, efficient cable installation.

Material & Construction

Material	Copper (Cu e 99.9%)
Surface Finish	Tin-plated
Key Features	Viewing Window, Bell-mouth Barrel, Low Voltage Compatible
