

Copper Conductor Computer Cable

This computer cable features copper conductors and a PVC jacket. It is available in configurations with two or three conductors.

Product Overview

High-Performance Computer Cabling

This copper conductor computer cable is engineered for reliable connectivity in various electronic and computing applications. Featuring high-quality copper conductors protected by durable PVC insulation and a robust PVC jacket, it ensures consistent signal transmission. Available in flexible configurations with either two or three conductors to suit specific project requirements.

Technical Specifications

Conductor Material	Copper
Insulation Material	PVC
Jacket Material	PVC

Configuration Options

Conductor Configurations

- 2-Conductor
- 3-Conductor

Applications

Primary Applications	Computer Systems, Electronic Equipment, Signal Transmission
----------------------	---
