

# Corded and Cordless Telephone Set

This corded and cordless telephone set includes a base station and a cordless handset. The base unit has a display screen and multiple buttons.

## Product Overview

### Professional Communication Solution

This dual-mode telephone set combines a reliable corded base station with the flexibility of a cordless handset, making it an ideal choice for both home and office environments. The integrated design features a clear display screen and intuitive button layout for efficient call management. Its hybrid configuration ensures that you remain connected even during power fluctuations, providing a versatile solution for daily business communication needs.
