

# Corded Angle Grinder for Metalworking

This angle grinder is a versatile power tool used for grinding, cutting, and polishing various materials. This model features a robust motor, ergonomic design, and adjustable guard for enhanced safety and control.

## Overview

### Professional Corded Angle Grinder

This corded angle grinder is engineered for demanding metalworking and construction tasks, providing reliable performance for grinding, cutting, and polishing. It features a robust 700W motor capable of reaching 11,000 RPM, ensuring efficient material removal and smooth operation. Designed with ergonomics and safety in mind, it includes an adjustable guard and a manageable weight of 2.3kg for extended use.

## Performance Metrics

### Rated Input Power

**700 W**

Power Output

### No Load Speed

**11000 r/min**

Speed

## Technical Specifications

### Electrical Compatibility

- 220-240V
- 50-60Hz

Disc Size 125 mm

Net Weight 2.3 kg

## Features

Primary Applications Metalworking, Construction, Grinding, Cutting, Polishing
