

# Corded Circular Saw with 65mm Cutting Depth

This corded circular saw has a blade size of \$185\$2024T and a 1400W motor. It achieves a maximum cutting depth of 65mm and a no-load speed of 4800r/min.

## Product Overview

### High-Performance Corded Circular Saw

This powerful 1400W corded circular saw is designed for precision and efficiency in professional woodworking and construction tasks. Featuring a robust 65mm maximum cutting depth and a high-speed motor, it delivers consistent results across a variety of materials. The ergonomic design includes essential safety features like a lock-off switch and integrated dust extraction for a cleaner, safer workspace.

## Technical Specifications

Rated Voltage	230V / 120V
Frequency	50/60Hz
