Overview

A versatile corded electric drill suitable for construction and repair work.

Professional Grade Corded Electric Drill

This 710W corded electric drill is engineered for reliable performance in drilling applications across wood and other soft materials. It features a robust 10mm capacity chuck for secure bit retention and a high-torque gearbox to handle demanding tasks. Designed with user comfort in mind, the drill includes an ergonomic soft-grip handle, variable speed control, and a reverse function for maximum versatility in both professional and DIY environments.
