

# Corded Electric Mixer Drill with Spade Handle

This corded electric drill is designed for heavy-duty mixing applications. It features a robust motor that delivers consistent power and torque for efficient mixing of paints, mortars, and other materials.

## ADDITIONAL IMAGES

## Overview

### Professional Mixer Drill

This versatile corded electric mixer drill is engineered for heavy-duty mixing and drilling applications. Featuring a robust motor and an ergonomic spade handle, it provides the necessary torque and control for mixing building materials like mortar and paint, as well as drilling into wood, metal, and plastic. Designed for professional use, it includes convenient features such as variable speed control and a lock-on switch to enhance comfort during extended operation.

## Performance & Control

Operation Modes	Stirring, Drilling
Speed Adjustment	Electronic variable speed (0 to maximum)
Reverse Function	Yes
Lock-on Switch	Yes

## Design & Ergonomics

Handle Design	Spade handle with auxiliary handle

## Technical Details

### Suitable Materials

- Paint
- Mortar
- Wood
- Metal
- Plastic

Chuck Type	Gear rim chuck
