Overview

High-Performance Corded Impact Drill

This versatile corded impact drill is engineered for professional-grade performance in both drilling and percussion drilling applications. Featuring a robust 850W motor and an aluminum gear box, it provides consistent power and enhanced heat dissipation for demanding tasks. With dual-speed functionality and adjustable electronic speed control, it offers the precision needed for materials ranging from wood to concrete.

Technical Specifications

| | |
|-----------------------|--------------------|
| Rated Power | 850 W |
| Voltage / Frequency | 220~240V / 50~60Hz |
| Rated Torque | 3.2 N.m |
| Max Drilling Diameter | 13 mm |

Performance Metrics

Key Performance Metrics

2500 rpm

Max No-load Speed

38800 bpm

Max Impact Frequency

Operation & Control

Speed Settings

- Low: 0-1100/min
- High: 0-2500/min

Key Features

Adjustable Speed, Dual Mode, Depth Gauge, 360° Auxiliary Handle, Aluminum Gear Box

Physical Dimensions

Dimensions & Weight

| Attribute | Value |
|-----------|------------------|
| Size | 360 x 75 x 225mm |
| Weight | 2.7 kg |
