

Corded Impact Drill for Wood, Metal, and Masonry

This impact drill is designed for drilling into wood, metal, and masonry. It features variable speed control for accurate drilling and driving.

Product Overview

High-Performance Drilling Solution

This versatile impact drill is engineered for demanding tasks across wood, metal, and masonry surfaces. It features a robust motor capable of handling rigorous drilling applications, supported by variable speed control for enhanced precision. With an ergonomic build designed for extended operational comfort, this tool is a dependable choice for both professional contractors and DIY enthusiasts.

Key Features

Core Capabilities

- Variable speed control
- Ergonomic grip design
- Durable construction
- Impact drilling mode

Suitable Materials

Wood, Metal, Masonry
