

Corded Power Drill with Variable Speed

This corded power drill is designed for drilling holes in various materials. It features a chuck for holding drill bits, a side handle for improved control, and a variable speed trigger for adjusting drilling speed.

Product Overview

Professional Corded Performance

This corded power drill is engineered for versatility and control across various construction and maintenance tasks. It features an integrated variable speed trigger, allowing operators to adjust drilling speed precisely based on the material density. Built with an ergonomic design and an additional side handle, this tool provides the stability and comfort necessary for extended professional use.
