

Corded Rotary Hammer Drill

This corded rotary hammer is designed for drilling and chiseling in concrete, brick, and stone. It features a high-performance motor and variable speed control.

Product Overview

Professional Rotary Hammer Drill

This powerful rotary hammer is engineered for high-performance drilling and chiseling applications in demanding materials like concrete, brick, and stone. Designed for professional use in construction and renovation, it features a robust motor, variable speed control, and an integrated safety clutch to protect both the operator and the tool. The ergonomic frame and vibration reduction technology facilitate comfortable, precise operation during extended work shifts.

Technical Specifications

Model Identifier	HR2602
Suitable Applications	Concrete, Brick, Stone

Features

Key Features

- High-performance motor
- Variable speed control
- Safety clutch protection
- Vibration reduction technology
- Ergonomic design
