

Cordless Angle Grinder Tool

This cordless angle grinder is designed for cutting, grinding, and polishing various materials. It features a compact, ergonomic design and is powered by a rechargeable battery for cordless use.

Product Overview

High-Performance Brushless Angle Grinder

This cordless angle grinder features an advanced brushless motor that runs cooler and more efficiently, extending tool life significantly. It is electronically controlled to optimize battery energy, delivering up to 50% longer run time per charge. Designed for professional use, it offers high-power performance for demanding cutting and grinding applications.

Technical Specifications

Compatible Battery Capacities

- 1.5Ah
- 2.0Ah
- 3.0Ah
- 4.0Ah

No-Load Speed	7500 RPM
---------------	----------

Voltage	21V Max
