

Cordless Brushless 18V Circular Saw with 185mm Blade

This cordless circular saw features a brushless motor for enhanced runtime and durability. The saw is equipped with a 185mm blade and operates on an 18V Li-Ion battery, delivering speeds up to 6000 RPM.

Overview

High-Performance Cordless Cutting Solution

This 18V cordless circular saw features a high-performance brushless motor designed for extended runtime and professional durability. Equipped with a 185mm blade and an ergonomic design, it delivers fast, clean cuts while reducing user fatigue during prolonged operation. The integrated electronic brake and LED light ensure a safe and precise working environment for demanding onsite tasks.
