Product Overview

High-Performance Cordless Grinding

This cordless brushless angle grinder is engineered for professional cutting, grinding, and polishing tasks. Equipped with a high-efficiency brushless motor, it delivers consistent power and extended runtime for demanding metalworking and construction applications. Its compact, ergonomic design ensures precise control and comfortable handling during prolonged use.

Technical Specifications

Voltage	18 V
No-Load Speed	10000 rpm
Disc Diameter	115 mm
Motor Type	Brushless

Included Accessories

Standard Kit Contents

- 1x Wrench
- 1x Side Handle
- 1x Grinding Disc

Key Features

Safety & Control	Safety Guard, Spindle Lock, Ergonomic Design, Side Handle
