

Cordless Brushless Blower

This cordless blower features a high-efficiency brushless motor for extended runtime and powerful performance. Variable speed control allows adjustment of the airflow to suit different tasks, while the lightweight design ensures comfortable operation.

Product Overview

High-Performance Cordless Blower

This cordless brushless blower is engineered for professional-grade outdoor cleaning tasks, delivering consistent power and efficiency. Featuring a robust brushless motor and variable speed settings, it provides the versatility needed for various landscaping applications. Its lightweight construction, combining durable ABS housing with a resilient PP tube, ensures user comfort during extended operation.

Technical Specifications

Motor Type	Brushless (4-pole motor without hall)
No-Load Speed	26500 RPM
Speed Settings	2 settings

Performance Metrics

Key Performance Indicators

40 V

Voltage

127 MPH

Max Airspeed

440 CFM

Max Airflow

Power & Compatibility

Battery Configuration

- Single battery operation
- Double battery operation

Compatible Battery Capacities

1.5Ah, 2.0Ah, 2.5Ah, 3.0Ah, 4.0Ah, 5.0Ah, 6.0Ah, 8.0Ah

Construction & Materials

Material Composition

Component	Material
Housing	ABS
Tube	PP
