

Cordless Brushless Impact Driver

This cordless impact driver features a brushless motor for increased efficiency and runtime. It delivers high torque for effectively driving screws and bolts.

Overview

High-Performance Cordless Fastening

This 18V cordless impact driver is engineered with a brushless motor to provide superior runtime and efficiency for professional fastening tasks. Delivering a maximum torque of 170N.M, it handles demanding screws and bolts with ease while maintaining a compact, lightweight profile for maneuverability. The tool features a quick-release chuck and integrated LED lighting to ensure precision and convenience in various working environments.

Impact Rate

Technical Specifications

Motor Technology

Brushless Motor

Operating Voltage

18 V

Chuck Capacity

1/4" Quick Release

Battery & Power

Battery Technology

Lithium-Ion, 18V System, 5.0Ah Compatible

Features

Key Features

- Variable speed control for precision
- Integrated LED work light
- Compact and lightweight ergonomic design
- Quick-release hex drive for rapid bit changes
