Overview

High-Performance Brushless Impact Wrench

The LCW777-9B is a professional-grade 20V cordless impact wrench engineered for demanding fastening tasks in automotive and industrial environments. Featuring a high-efficiency brushless motor and three adjustable speed settings, it delivers a maximum torque of up to 300NM for versatile performance. Its ergonomic design, integrated LED work light, and intelligent battery indicator ensure maximum comfort and productivity during extended use.

Battery & Power

Battery Pack	Li-Ion 2000mAh
Charging Time	1 hour

Features

Operational Features

- Forward/reverse rotation
- Variable speed control
- Electric brake
- LED work light
- Intelligent battery indicator

Ergonomic Design

Soft grip handle designed for reduced fatigue and enhanced comfort

Compliance

The product complies with major international standards including CE, GS, ETL, and RoHS, ensuring safety and reliability for global markets.
