

Cordless Drill with Adjustable Torque and 12V Battery

This cordless drill features adjustable torque settings and an ergonomic grip. It is designed for drilling and screw driving tasks.

Overview

Versatile Cordless Performance

This cordless drill is engineered for efficiency in both drilling and screw-driving applications. Featuring an adjustable torque system, it allows for precise control across various materials, ensuring optimal results without damaging surfaces. The integrated 12V battery provides reliable, portable power, making it an essential tool for professional and DIY tasks alike.

Technical Specifications

Voltage	12 V
Torque Settings	Yes

Key Features

Power Source	Battery Powered • Cordless
Primary Applications	Drilling, Screw Driving

Ergonomics

Grip Design	Ergonomic handle for improved comfort and control
