Product Overview

High-Performance Cordless Cable Cutting

The EB-105 is a professional-grade cordless hydraulic cable cutter engineered for precision and efficiency in demanding electrical environments. Featuring a high-performance brushless motor, this tool delivers significant power for cutting copper, aluminum, and ACSR cables while maintaining an ergonomic design for extended use. Designed for portability and convenience, it is an essential tool for electrical contractors and utility technicians who require reliable, clean cuts on the job site.

Technical Specifications

Motor Technology

Brushless Motor • No-Carbon Brush

Power Source 18V Rechargeable Lithium-ion Battery

Battery Capacity 3.2 Ah

Compatible Cable Types Copper, Aluminum, ACSR

Performance Metrics

Performance Highlights

18 V

Voltage

Key Features

Operational Benefits

- Fast and efficient cutting cycle
- Extended motor life due to brushless design
- Ergonomic handle for comfortable operation
- Clean and accurate cuts to minimize cable damage
- Cordless portability for field use
