

# Cordless Electric Garden Tiller

This 18V cordless tiller is a lightweight and portable gardening tool for cultivating soil. It features a rotating tilling head to break up and aerate the soil for planting.

## Product Overview

### Cordless Gardening Efficiency

This 18V cordless garden tiller is designed for effortless soil cultivation in gardens and flower beds. Featuring a lightweight, ergonomic design, it offers the freedom of cordless operation with a powerful lithium-ion battery. It is the ideal tool for aerating soil, mixing in compost, and preparing garden beds for planting with ease.
