

Cordless Electric Grass Trimmer

This cordless grass trimmer is designed for edging and trimming lawns and gardens. It features a long handle for comfortable use and a rotating cutting head with nylon blades.

Product Overview

Cordless Convenience for Your Garden

This cordless electric grass trimmer is designed for efficient lawn maintenance, offering the freedom of movement without the restriction of power cords. Lightweight and versatile, it features a telescopic aluminum handle and a rotatable assistant handle to ensure comfortable operation for any user. Perfect for edging and trimming, this tool is powered by a 12V lithium-ion battery, making it an essential addition to any garden care toolkit.
