

Cordless Electric Hedge Trimmer

This cordless electric hedge trimmer delivers powerful cutting performance with durable, dual-action blades. It features a lightweight design and ergonomic handle for comfortable operation and extended runtime.

Product Overview

Professional Trimming Performance

This cordless electric hedge trimmer is engineered for powerful cutting performance, utilizing durable, dual-action blades to handle residential garden maintenance with ease. Designed with a lightweight, ergonomic handle, it ensures maximum maneuverability and operator comfort during extended use. The system is powered by a long-lasting battery, providing the necessary runtime for demanding hedge and shrub trimming tasks.
