

# Cordless Electric Hedge Trimmer with Li-Ion Battery

This cordless hedge trimmer is powered by a 40V lithium-ion battery. It features extra-long, dual-action blades for efficient cutting and a rotating handle for comfortable use at various angles.

## ADDITIONAL IMAGES

## Overview

### High-Performance 40V Cordless Trimming

This 40V cordless hedge trimmer is designed for professional-grade garden maintenance, offering the freedom of battery-powered operation without the constraints of cables. Equipped with a 56cm double-sided reciprocating blade and a 90-minute runtime, it provides the efficiency needed for extensive landscaping tasks. The ergonomic design features an adjustable handle to ensure comfort and precision when cutting at difficult angles.

## Performance Metrics

Powerful 40V performance provides professional results with cordless convenience.

### Performance Highlights

**40 V**

Voltage

**90 mins**

Runtime

**1200 rpm**

No-Load Speed

## Cutting System

The ergonomic design and 56cm blade allow for efficient shaping of hedges and shrubs.

## Blade Specifications

Feature	Specification
Blade Length	560mm (22 inches)
Blade Type	Double-sided reciprocating
Cutting Capacity	20mm (3/4 inch) diameter
Blade Material	65Mn or Laser Cut Tempered Steel
Teeth Distance	20mm

## Power & Battery

The 40V battery is part of a universal family range, interchangeable with other garden power tools.

## Battery System

- Battery Type: Lithium-Ion (Li-Ion)
- Capacity: 4000mAh (4.0Ah)
- Voltage: 40V DC
- Interchangeable within the 40V garden tool family

## Ergonomics & Design

Designed for precise trimming in residential and landscaping environments.

### User Comfort Features

- 3-Position rotatable handle (-90°, 0°, +90°)
- Soft grip main handle
- Oversized secondary handle for stability
- Durable ABS material shell
- Lightweight, balanced construction
