

Cordless Electric Iron with Docking Station

Cordless electric iron comes with a docking station. It features variable temperature settings, a non-stick soleplate, steam function, and a water reservoir.

Product Overview

Cordless Convenience

This cordless electric iron features a docking station design that provides freedom of movement without the restriction of a power cord. Equipped with a durable non-stick stainless steel soleplate, it ensures smooth gliding across various fabric types. The unit supports versatile ironing modes, including steam, water spray, blast, and vertical steaming, making it a comprehensive solution for efficient garment care.
