Product Overview

Ergonomic cordless jigsaw designed for versatile professional and DIY applications.

Versatile Cutting Performance

This 18V cordless jigsaw is designed for precision cutting in timber, veneer, particle board, plastics, and acrylic. Featuring a 3-position pendulum switch and variable speed control, it offers exceptional flexibility for both straight and curved line cutting. The tool is built for comfort and efficiency with an ergonomic soft-grip handle, tool-less blade clamping, and an integrated LED work light for improved visibility in dark environments.

Technical Specifications

Compatible 18V/20V Max battery pack providing long-lasting power.

Quick charger with LED status indicators.

Voltage	18 V
No-Load Speed	2600 rpm
Stroke Length	20 mm
Battery Capacity	2000mAh, 4000mAh
Weight	2.18 kg

Features

Adjustable bottom plate for 0-45 degree bevel cuts and integrated horizontal ruler.

Core Functionalities

- 3 Position Pendulum Switch
- Toolless Blade Clamp
- Variable Speed Trigger
- Soft Grip Handle
- Integrated LED Work Light
- 0-45° Bevel Cutting Capability
