

# Cordless Electric Kettle

This electric kettle is constructed from stainless steel. It is designed for rapid boiling and features a cordless design for convenient pouring.

## Product Overview

### Efficiency Meets Design

This modern cordless electric kettle features a durable concealed stainless steel heating element designed for rapid and reliable boiling. With a compact 1.0-liter capacity and a sleek brushed stainless steel finish, it is an ideal addition to any professional workspace or kitchen. The unit prioritizes safety and convenience with built-in dry boil protection, an automatic shut-off function, and a 360-degree rotational base for easy handling.

## Technical Specifications

### Power Performance

**2200 W**

Max Power (220-240V)

**1200 W**

Max Power (100-120V)

### Capacity

1 L

### Voltage Compatibility

220-240V 50/60Hz, 100-120V 50/60Hz

## Safety & Features

### Safety Protections

- Dry boil protection
- Automatic shut-off when boiled
- LED on/off indicator light

### Design Features

Cordless • 360° Rotation • Concealed Heating Element • Cord Storage
