

Cordless Electric Kettle with Water Level Indicator

This cordless electric kettle rapidly boils water for tea, coffee, and more. It features a water level indicator for easy filling and a cordless design for convenient pouring.

Product Overview

Efficient Boiling Solution

This cordless electric kettle is designed for reliable and convenient daily use in professional or office environments. Featuring a durable plastic body and an ergonomic handle, it ensures safe and easy pouring. The integrated water level indicator allows for precise filling, helping to optimize energy usage and boiling time.
